PHOTOGRAPHY

## "Grow with Me" Options

Thank you so much for your interest in doing a session with Christie Gare Photography! I am excited about the possibility of working with you! I am a full time mommy with a passion for photography. I started my business in Tulsa, Oklahoma in 2010, but the passion for photography has been life long!

### General Information:

Each session, I will take hundreds of photos. You will not get every shot I capture, as I will weed out the ones that didn't make the cut. After your session, I will edit with Photoshop and Lightroom. I edit each image to come in color and black and white. My average turn around to have a session complete and uploaded is 2 weeks or less (usually way less!).

All prices include a link to online viewing/ordering gallery where you will be able to download your best edited images straight to your computer (release to print is included). Each package comes with a different amount of promised and included digitals - any images over this amount are included at no additional cost. This is the more digital alternative to burning a CD - you will have the ability to burn your own CD after downloading the images.

I know you have a lot of photographers that you can choose from - this blog post is incredibly helpful in helping explain why Christie Gare Photography is different. Take a look! [Why is Christie Gare Photography Different?](#)

### Platinum Package - \$1800+ tax (\$300 savings!)

This session includes 5 mini sessions plus the newborn +posed session! Your savings is the amount of one of those sessions - for free! \*\* All of these images include the digital images with rights. To see specific numbers, please check my [main pricing](#) page.
