PHOTOGRAPHY

Thank you so much for your interest in doing a session with Christie Gare Photography! I am excited about the possibility of working with you! I am a full time mommy with a passion for photography. I started my business in Tulsa, Oklahoma in 2010, but the passion for photography has been life long!

Please note that I do NOT have a studio and focus my work solely on outdoor, natural light photography. While I am all for discussing any props that you may have, I focus my work mostly on timeless “less is more” style photography and truly capturing the love and personality of the subject(s).

General Information:

Each session, I will take hundreds of photos. You will not get every shot I capture, as I will weed out the ones that didn't make the cut. After your session, I will spend, on average, 4-6 hours of editing with Photoshop and Lightroom. I edit each image to come in color and black and white. My average turn around to have a session complete and uploaded is 2 weeks or less (usually less!).

All prices include a link to online viewing/ordering gallery where you will be able to download your best edited images straight to your computer (release to print is included). Each package comes with a different amount of promised and included digitals - any images over this amount are available at no additional cost. This is the

more digital alternative to burning a CD - you will have the ability to burn your own CD after downloading the images. Through this online gallery, you can also have your pictures professionally printed and mailed straight to your home with a photo lab I trust and love. It's the best of both worlds!

Senior Session - \$475.00 + tax

This is your time to shine! I love to capture seniors in such an exciting phase of life. I try to get an arrangement of photos that will be great for showing friends/family, putting in your announcements, and having keepsakes for years to come.
